

American Line Will Defy

New York, Feb. 8.—The International mercantile marine is likely to be the first American line to defy the German submarine policy by sending out its ships armed for defensive purposes. Officials of the line today are trying to get in touch with experienced naval gunners.

Secretary Lansing this morning advised the lines they could arm the vessels for defensive purposes if they desired. "We have not as yet decided to arm our vessels," one official said this afternoon. The St. Louis, held up for several days, will probably be the first submitted to the test.

It is expected that the Philadelphia now at Liverpool and the St. Paul which will sail from New York Saturday or Sunday will be protected by men trained in the United States navy.

OLD SOLDIERS OF
SOUTH HONOR
GEN. EWALL

Gained Fame By Disobeying
Orders of Confederate Con-
gress to Burn Warehouse

EXPRESSED HIS SENTIMENTS

Richmond, Va., Feb. 8.—In cities and towns throughout the south, wherever a local camp of the United Confederate Veterans exists, the old soldiers will come together today to pay a tribute to the memory of General Richard S. Ewall who in point of military ability and energy was among the greatest leaders of the Confederate cause in the war between the states. The occasion is the one hundredth anniversary of General Ewall's birth, which occurred at Georgetown, D. C., Feb. 8, 1817.

General Ewall was of an old and distinguished Virginia family. He was the grandson of Benjamin Stoddard, the first secretary of the United States navy. At 23 he was graduated from the United States military academy, and in the Mexican war served as lieutenant. At 32 he became a captain and saw service in New Mexico against the Apache Indians.

When Virginia seceded from the Union he withdrew from the United States army and offered his sword to the Confederate cause. Before active hostilities began, he had risen through successive promotions to the rank of major-general, and commanded a division at Blackburn's Ford and at Manassas in July, 1861. He then was attached to the corps of General Jackson and took part in the several brilliant successes of that commander which preceded the second Bull Run, and it was Jackson's dying wish that Ewall should succeed to his command.

Ewall had lost a leg at Warrenton Pike in the previous August, two days after he had driven the Federal troops from Manassas. After Jackson's death he led the second corps at the capture of Winchester, at Gettysburg, at the Wilderness and at Spotsylvania with no less courage and resolution than his old comrade and predecessor.

At the time when Grant was in the last marches of pursuit against Lee's army in Virginia, General Ewall, who had been retired from active duty on account of physical incapacity, was in command of Richmond. On that fatal Sunday morning in early April, 1865, when the news was received by Jefferson Davis as he sat in his pew at church that the Confederate capital had to be abandoned, it fell to Ewall to evacuate the city. The Confederate congress had passed an act ordering the great warehouse of the city to be burned whenever evacuation should be determined upon. General Ewall, however, assumed the responsibility of disobeying the order and endeavored unsuccessfully to preserve the property of the city from the flames. And when it became clear to him after the evacuation of Richmond that the cause was lost he expressed freely the sentiment that there ought not to be further effusion of blood by useless resistance against overwhelming odds.

Visiting Old Home
And Old Friends

Well Preserved Veteran of Two Wars
Is Fine Specimen of Man

Mr. and Mrs. Richard S. Carr, of Ashland, Kentucky, are visiting old home scenes and friends in this section at present. "Dick" Carr is an old Clearfield boy, being a member of the well known Pike township Carr family and was born and raised in the Montgomery region.

Captain Carr is a fine specimen of physical manhood and bears a striking resemblance to the late Buffalo Bill. He is a veteran of two wars and is very much interested in the outcome of the present difficulty with Germany and despite the fact that he is well past the age limit, is ready and willing to once more offer his services in defense of this nation and old glory.

Captain Carr with his brother Alex, responded to President Lincoln's call for troops in 1861 and enlisted in the Fifth Pennsylvania Volunteers and left Clearfield with Captain Lorraine's Company E. He served with distinction through the Civil war and was severely wounded in the seven days battle before Richmond. Early in this fight he was shot through the lung and shoulder and lay on the battle field for five days before being picked up and cared for and only his strong physique and iron constitution pulled him through and enabled him to serve out a term in the notorious Libby prison.

The wounding of Comrade Carr served to stimulate the war fever in this loyal family and resulted in two other brothers, Benjamin and William, enlisting immediately and going to the front.

Mr. Carr and his family settled in Kentucky after the war, where he held many positions of responsibility and trust. When the war with Spain broke out in 1898 his martial blood was again aroused and soon we find him enrolled as a member of Co. K, First Kentucky Volunteers, under Colonel Castelman, a former Confederate officer, on his way to Cuba to assist in taking a full out of the haughty Spaniard. He again served his country with distinction and laid down his arms when mustered out with his company at the end of the war.

Mr. Carr is well known to our older citizens and has a host of warm friends in this section who are always more than well pleased to greet him.

Horn Murder Case is
Continued Until March

Absence of Material Witness Given as
Reason For Change of Time

The case of Com. vs Ralph Chirovalla, charged with the murder of Abe Horn at DuBois several months ago, and which was scheduled for trial this morning was continued on application of A. H. Woodward, Esq., counsel for the defense, because one of his material witnesses was sick in bed and unable to be present.

The case was continued until Monday, March 5th, the present panel of jurors being directed to return to court at that time.

OWLS OBJECT TO STATEMENT

The Order of Owls, through their Secretary Peter Shaw, desires a correction of the story published in the list of court house doings last night relative to the appeal taken by the Clearfield nest from a judgment entered against them by Justice Thorpe on a claim of Thomas Parks, a member, for \$25 which he alleged was due him for back benefits.

The secretary of the nest said they object to the statement that payment was refused because they had no money, when such was not the case, as they were amply able to pay all their bills at any time. He also said that the brother was not entitled to any benefits whatever, hence their appeal from the judgment, which fact will be shown when the case is heard in court.

Germany Continues to Hold
All Americans As Hostages
Until Bernstorff Returns'Dutch' Guelich Thinks
Nobody Knows It

We Just Couldn't Help But Find out
He Has Taken a Wife

Patrons of the Guelich Barber shop on Third street have noticed for some time that the proprietor was more than usually courteous and genteel in catering to the needs of his customers. Likewise it has been noticed that his hands are just a little bit shaky and the glistening blade does not run quite so smooth on the face of his customers as it did. "Dutch" isn't much of a fellow for noise except when he is playing his part in the Guelich orchestra so he has not given utterance to a word that would indicate to his friends just why there is such a change in his usual calm manner. But "murder will out" as the old saying goes and "there is a little bird that tells tales" and that little bird fluttered down on the roof of the Progress office this morning very much excited. With a great deal of "twitter" and fluttering of wings the little bird aforesaid told us the whole tale. This is the tale: On the 24th of January "Dutch" took unto himself a wife in the person of Miss Eva Michaels of Grass Flat, Pa. A little gum shoe work confirmed the tale of the birdie and disclosed the fact that the ceremony took place at eleven o'clock P. M. of that day. Best wishes to you old man, but please don't try to keep these things "mum."

The Smith Family are
First Class Marines

1932 Smiths, 322 Murphys and 122
Cohens Recently Enlisted

Washington, Feb. 8.—Do you belong to the Smith family? If you do you are a first class marine. The Smith family is the most widely represented family in the ranks of Uncle Sam's fighting men, according to statistics recently compiled by the United States marines.

Of the 1932 Smiths who have recently enlisted in the United States Marine corps there are 181 Franks, 1165 Johns and 160 each of Charles and Williams. Murphys take the lead among those of Irish descent with 322, and among the Hebrews, who contrary to general belief are first class fighting men, 122 Cohens stand bravely to the fore.

The term "Tommy Atkins" applied to the English soldier gained its popularity by the large number of that name in the British army, and the United States marines point to "Frank Smith" as being the logical sobriquet of the American military man.

JUNIOR CHATUAQUA MEETING

The Junior Chataqua Winter Club will hold an open meeting Monday afternoon Feb. 12th at four o'clock. All who are interested in Junior Chataqua work are invited to attend this meeting.

After the regular club meeting the children will present some of the dances and games that make up part of the Club's activities. Among these are the "Indian Sun Dance," "The Varsoviene," "The Kinderpolka" and "The Swedish Dancing Game" and others.

DOGS RUNNING DEER

Ross Curry, of Chest township, is serving as a juror this week and in conversation with a Progress representative stated that dogs were running deer in the upper end of the county, and that on Friday last a dead deer that had been run into the river by the dogs and drowned was discovered frozen in the ice at the Five Points bridge.

Those Close to President Do Not Believe
That He Will Make the California a Reason For War

U-BOAT WARFARE GOES ON WITH VIGOR

Women and Children Missing

New York, Feb. 8.—Six women and five children were among those missing after the liner California was sunk yesterday according to a cable from Glasgow received at the local offices of the line here today.

Vessels Leave Under Convoy

New York, Feb. 8.—French and Italian vessels left the navy yards at Norfolk this morning fully armed and loaded with munitions, cotton and general supplies for the ententes. Twenty-five miles out from shore the ships joined a fleet of allied war ships which will convoy them. Others from Baltimore and other ports along the coast will join the fleet. It was said that allied war ships would convoy all vessels in squadrons of ten or more hereafter. Several Dutch, Danish and Swedish vessels are closely following behind the guarding warships.

German Agents Busy in Mexico

El Paso, Feb. 8.—Activity of German agents in Juarez, Chihuahua City and other interior cities in Mexico today are claiming the attention of United States secret service men acting under the direction of the army authorities. It is feared the Germans will form a raid of unorganized bandits upon the United States territory in case of a declaration of war by Germany to make necessary the retention of large bodies of troops at the border for protection and seriously embarrass relations between this government and Mexico.

Calls It Flagrant Insult

New York, Feb. 8.—"The delaying of Ambassador Gerard is a flagrant insult," Prof. E. S. Stoell, teacher of international law in the Columbia University declared today. Many other authorities agree with Stoell in branding the act as one unprecedented in international law.

"I am sure," said Stoell, "that the American nation will know how to resent the insult." Prof. F. S. Giddin said "Congress should declare war on Germany by noon today. This is outrageous. No words can be printed that can express how we feel about it. It is apparent that Germany is trying to force war between this country and herself."

3,930,000 Pledge Loyalty

Philadelphia Feb. 8.—Three million members of the German-American alliance have pledged unqualified loyalty to the United States should this government be forced into war with Germany. At a mass meeting held here at midnight a resolution to this effect was adopted. It was learned today. The resolution read by Rev. Jewell Hoffman declared that the alliance will continue collecting its funds for the relief of the war sufferers of the Germanic allies. If Germany and America open hostilities every penny will be turned over to the United States for military purposes.

Offers Gift to Government

Washington Feb. 8.—The Mexican Petroleum company through its secretary E. S. Doherty of Los Angeles offered the government the use of five million barrels of crude oil at Tampico.

Discharge German Seamen

Washington, Feb. 8.—German seamen in the service of the United States coast guard were discharged on Tuesday it was learned at the coast guard headquarters here today.

British Take German Lifer

Lima Peru, Feb. 8.—A British auxiliary cruiser late last night captured the Chile Maito a short distance off Callao boarded her and took Captain Krauss, acting superintendent of the Kosmos line, a German steamship company.

Krauss according to British officials informed German officials relative to the cargo and sailing time of the Peruvian tanker Lorton which was torpedoed and sunk.

Krauss was declared to be a secret agent of the German admiralty. His arrest was hailed in Lima with satisfaction.

The Peruvian government together with Chile support the protest against the German announcement of unlimited submarine warfare.

Flash—France has assured Bernstorff his safe conduct and the other allied powers are expected to reply to the state department's request for safe conduct of Bernstorff by tonight.

Germany is holding virtually as hostages the secretaries of von Bernstorff and Anshutz, citizens of Germany. Ambassador Gerard, his staff, American newspaper men and all American citizens of the United States in Germany will not be permitted to leave until von Bernstorff is returned to a neutral port.

The German government, and possibly because the United States has made known its policy of opposing the war between Germany and America, is holding the secretaries of Bernstorff and Anshutz as hostages.

Evil Mind is Back
Of All Evil Things

Dr. Coburn Subject Tonight Will be
"The Man Who Got Mad."

At the Baptist church last night Dr. Coburn spoke on the teaching of the Bible about God and the devil contrasted with the teaching of man. He showed that back of every evil thing in the world there must be an evil person and an evil mind. Each of every lie there must be a liar. Back of everything of hate there must be one who hates. Inhuman things and the lower animals never do nor hate and have no influence. All must have a beginning and the origin of reason and necessity make a personal devil certain. The Bible represents all disease and death as coming from the devil and that God look upon himself human nature that he might become mortal and so did destroy him that had the power of death, the devil, and deliver them through fear of death were all their lifetime subject to bondage. Every good thing has its opposite in something evil and everything evil comes from the devil the great enemy of God and of man. The speaker then showed how different in every way was the thought of man. The subject tonight will be "The man who got mad." Tomorrow afternoon, Dr. Coburn will deliver an address on "The Mementoes of the Bible." On Saturday night he will begin a series of addresses on some of the great questions of life illustrated with the moving pictures and some of the greatest films yet made and shown seen outside of the large cities.

Dr. Quigley was called in this morning by the local physician, stating that the membrane in the child's throat was black, hence the diagnosis that the disease was black diphtheria. The doctor also said that this case had often arisen in the past and that where the victim has the disease a virulent form, from the time that diphtheria reaches the throat, more and less than diphtheria.

He added that a boy in the children who he had seen in the hospital was very much improved and that the boy's condition was very good.

holding of Americans in Germany as hostages, conduct is given to Bernstorff may look like an or at least an act reflecting on the rights of people. It must be remembered, however, that amicable relations have been broken between the two nations we cannot expect Germany to treat us with a suspicion and a view of self protection. No Americans will be sent home with a hearty "bon" as soon as a safe conduct can be arranged for it.

When it comes to making a declaration of war nothing is taken for granted. It is such a momentous thing that alone must be considered. Great consternation when it became known that the California was there is no doubt that the intent to disregard can rights was there and that the California would be sunk regardless of the number of Americans on board. Neither is there anything to indicate that Germany had any reason to believe that there were not more Americans on board. In courts of law, if the intent to commit a crime can be shown, it is sufficient for a conviction when it comes to plunging a nation into war. President Wilson can do no other thing than wait for an "overt" that is a full and proven infraction of his ultimatum. He has passed the time for much as a nation. There is a short time, probably this very day it will happen. Still Germany will give President Wilson good and honest reasons for taking the next step in this great war. Today news tells us that the U-boat warfare goes on and Germany cannot pursue this course without committing the "overt act" that will plunge the two into deadly conflict.

FLIER OF THE WORLD TO MEET AT AVIATION SHOW

New York, Feb. 8.—Bird men from every civilized country on the globe gathered here today for the first Pan-American "Aeronautics" exposition, which opened at Grand Central Palace under the auspices of the Aero club of America. It will end February 15.

Flying men and flying machines from the European battle fronts are on exhibition. Planes wrecked in air fights and air-men wounded above the clouds are part of the show.

The really serious part of the program is the plan that will be advanced by the American society of automobile engineers to make the aeroplane and other air craft standard in all parts, like the automobile. It was this action with regard to autos, President Howard E. Coffin of the Engineers declared today, that gave the United States supremacy in the automobile world.

Among the speakers will be Prof. L. W. Pawlowski of Michigan, John Barrett of the Pan-American union, Ambassador de (Jana) of Brazil, Elbert Santos Dumont, Emerson McMillan, Henry White and others.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or have Bladder trouble

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poisons, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

MINISTERS TO GERMANY'S ALLIES MAY BE RECALLED

AMBASSADOR F. C. PENFIELD
AMBASSADOR A. I. ELKUS
MINISTER C. G. VOPICKA

Following the order to Ambassador Gerard to quit Berlin, it was momentarily expected in Washington that complications with Germany's allies would become such that it would be necessary to recall also Ambassadors Frederick C. Penfield at Vienna, Abraham I. Elkus at Constantinople, and Minister C. G. Vopicka, sent to Bulgaria and Roumania. Since Minister Vopicka makes his official residence in Bucharest, Roumania, such an order would probably mean he would remain there and sever relations with Bulgaria.

KNIFE ON CORNS CAUSES LOCKJAW

Tells how to loosen a tender corn so it lifts out without pain.

You restless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called Freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with little fingers.

It is stick y substance which does the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

THE SEVEN DEADLY DONT'S OF COURTSHIP

1. Don't "mush." That is, don't hug and squeeze and kiss all the girls before marriage. You'll tire of it too soon when you are married.
2. Don't try to rush matters, or seem over-anxious. It does more harm than good if you call on her very night in the week.
3. Don't get her a ring she will be ashamed of. Strike an average somewhere between on she would turn in and one that can be seen a block.
4. Don't dangle other girls in front of your sweetheart just to show her there are others. Cut out the others and concentrate on one.
5. Don't be a parlor or porch decoration and nothing else. Take her to a theatre, buy her candy, bring her flowers, show your love.
6. Don't marry for money or on love at first sight, or if there is too much difference in your ages, or if you are in poor health.
7. Don't forget her Mother. If she's the right kind of girl she'll heed her mother's advice and you will need a friend at that court.

UNCOVER RUINS OF LOST CITY ON AMERICAN CONTINENT

Asuncion, Feb. 8.—Excavating for the foundations of a new prison near Asuncion, workmen have uncovered the remains of a pre-historic city which archeologists pronounce a kind of Paraguayan Pompeii.

The town was laid out in a system of rectangular squares, with diagonal avenues and buildings of considerable size and architectural pretensions. From this the local experts conclude that the inhabitants must have reached a reasonably high stage of civilization. They figure, however, that the city must have disappeared long before Columbus sailed for the new world.

Nobody ever suspected before that such remains existed in this part of South America. More experienced investigators than are to be found here have been communicated with in Buenos Aires and Rio de Janeiro and researches are to be conducted which it is hoped may lead to important discoveries concerning the pre-historic inhabitants of the country.

Fine for Backache and Rheumatism

Stiff Joints Loosen Up Like Magic—Lumbago Relieved Over Night.

Earache, Headache, Toothache and Neuralgia also banished in a few minutes.

Just rub Mustarine on that sore, aching, almost breaking back. Don't be afraid to rub it on—it won't blister, but in five minutes you'll wonder where your backache has gone. You'll wonder why you never thought of Mustarine before.

Mustarine overcomes and entirely banishes so many ailments that no home can afford to be without it. Cough, Night, you can conquer Chest Cough, Sore Throat, Stiff Neck, Lumbago, Rheumatic Pains and Neuritis. It can also remove all agony from Feet, Bunions and Callouses. Use it for Chills and Frosted Feet.

Druggists everywhere can supply you but be sure you get the original Mustarine in the yellow box—25 and 50 cents. Never sold in jars.

Approximately 4000 acres are thrown open under the terms of the homestead and reclamation laws. The land is especially desirable for stock raising, being adjacent to an immense open range and with available hok stocks for winter feeding.

SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

Drink glass of hot water before breakfast to wash out poisons

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile, and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a huge volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation bilious spells, stomach trouble, rheumatism, other who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little but is sufficient to make anyone a pronounced

GAY MILITARY BALL FOR OLD GUARD

New York, Feb. 8.—The imagination falters when it attempts to fortell the grandeur and magnificence of gold lace and bubbling spirits which will be seen at the Old Guard ball at the Hotel Astor tomorrow night. For ever so many years the ball has been one of the brilliant social functions of the Winter in the metropolis. This year it is expected to set a new high mark for brilliancy and attendance.

Col. A. L. Kline, who is celebrated for his veracity, says there will be nearly 10,000 guests. State and city officials and officers of the army and navy will be present, together with delegations representing the veteran military organizations of numerous Eastern cities, including the Ancient and Honorable Artillery Company of Boston, the Governor's Foot Guards of New Haven, The Minute Men of Washington, the Putnam Phalanx of Hartford, and the Worcester Continentals. The members of these various organizations, clad in their picturesque uniforms, will take part in the grand military march at midnight. The Old Guard's 200 musicians will play for the march and dancing.

Sixty thousand Missouri women have signed a petition to the legislature of that state protesting against a bill providing for the abolition of trading stamps and similar forms of trade inducements.

Takes Up His Cudgel
Against "Mushing"

Y. M. C. A. Secretary Says There was Nothing Like it in His Day

New York, Feb. 8.—The cudgel against "mushing" was taken up with a vengeance here today by Secretary Charles W. Dietrich of the Central Y. M. C. A. He defined the term as "that hugging, kissing habit" of young men and women at parties these days.

"It's very bad from every standpoint, this dark and dangerous 'mush' part," said Dietrich. "Yet it is a great habit among young folks today."

"If you 'mush' too much now you will get tired of it before you ought to. They didn't have anything of that sort when I was young and I know of it now only through my sons, who by the way have only heard of the 'mush' parties; they don't attend them."

"Don't carry your demonstration too far even when you are engaged. Use your kisses for affection, not for passion; and your arm for protection, not for spooning."

"Marriage certificates of health are advisable. My son-in-law gave me one, although I did not demand it."

American Line Will Defy

New York, Feb. 8.—The International mercantile marine is likely to be the first American line to defy the German submarine policy by sending out its ships armed for defensive purposes. Officials of the line today are trying to get in touch with experienced naval gunners.

Secretary Lansing this morning advised the lines they could arm the vessels for defensive purposes if they desired. "We have not as yet decided to arm our vessels," one official said this afternoon. The St. Louis, held up for several days, will probably be the first submitted to the test.

It is expected that the Philadelphia now at Liverpool and the St. Paul which will sail from New York Saturday or Sunday will be protected by men trained in the United States navy.

OLD SOLDIERS OF
SOUTH HONOR
GEN. EWELL

Gained Fame By Disobeying
Orders of Confederate Con-
gress to Burn Warehouse

EXPRESSED HIS SENTIMENTS

Richmond, Va., Feb. 8.—In cities and towns throughout the south, wherever a local camp of the United Confederate Veterans exists, the old soldiers will come together today to pay a tribute to the memory of General Richard S. Ewell who in point of military ability and energy was among the greatest leaders of the Confederate cause in the war between the states. The occasion is the one hundredth anniversary of General Ewell's birth, which occurred at Georgetown, D. C., Feb. 8, 1817.

General Ewell was of an old and distinguished Virginia family. He was the grandson of Benjamin Stoddard, the first secretary of the United States navy. At 23 he was graduated from the United States military academy, and in the Mexican war served as lieutenant. At 32 he became a captain and saw service in New Mexico against the Apache Indians.

When Virginia seceded from the Union he withdrew from the United States army and offered his sword to the Confederate cause. Before active hostilities began, he had risen through successive promotions to the rank of major-general, and commanded a division at Blackburn's Ford and at Manassas in July, 1861. He then was attached to the corps of General Jackson and took part in the several brilliant successes of that commander which preceded the second Bull Run, and it was Jackson's dying wish that Ewell should succeed to his command.

Ewell had lost a leg at Warrenton Pike in the previous August, two days after he had driven the Federal troops from Manassas. After Jackson's death he led the second corps at the capture of Winchester, at Gettysburg, at the Wilderness and at Spotsylvania with no less courage and resolution than his old comrade and predecessor.

At the time when Grant was in the last marches of pursuit against Lee's army in Virginia, General Ewell, who had been retired from active duty on account of physical incapacity, was in command of Richmond. On that fatal Sunday morning in early April, 1865, when the news was received by Jefferson Davis as he sat in his pew at church that the Confederate capital had to be abandoned, it fell to Ewell to evacuate the city. The Confederate congress had passed an act ordering the great warehouse of the city to be burned whenever evacuation should be determined upon. General Ewell, however, assumed the responsibility of disobeying the order and endeavored unsuccessfully to preserve the property of the city from the flames. And when it became clear to him after the evacuation of Richmond that the cause was lost he expressed freely the sentiment that there ought not to be further effusion of blood by useless resistance against overwhelming odds.

Visiting Old Home
And Old Friends

Well Preserved Veteran of Two Wars
Is Fine Specimen of Man

Mr. and Mrs. Richard S. Carr, of Ashland, Kentucky, are visiting old home scenes and friends in this section at present. "Dick" Carr is an old Clearfield boy, being a member of the well known Pike township Carr family and was born and raised in the Montgomery region.

Captain Carr is a fine specimen of physical manhood and bears a striking resemblance to the late Buffalo Bill. He is a veteran of two wars and is very much interested in the outcome of the present difficulty with Germany and despite the fact that he is well past the age limit, is ready and willing to once more offer his services in defense of this nation and old glory.

Captain Carr with his brother Alex, responded to President Lincoln's call for troops in 1861 and enlisted in the Fifth Pennsylvania Volunteers and left Clearfield with Captain Lorraine's Company E. He served with distinction through the Civil war and was severely wounded in the seven days battle before Richmond. Early in this fight he was shot through the lung and shoulder and lay on the battle field for five days before being picked up and cared for and only his strong physique and iron constitution pulled him through and enabled him to serve out a term in the notorious Libby prison.

The wounding of Comrade Carr served to stimulate the war fever in this loyal family and resulted in two other brothers, Benjamin and William, enlisting immediately and going to the front.

Mr. Carr and his family settled in Kentucky after the war, where he held many positions of responsibility and trust. When the war with Spain broke out in 1898 his martial blood was again aroused and soon we find him enrolled as a member of Co. K, First Kentucky Volunteers, under Colonel Castleman, a former Confederate officer, on his way to Cuba to assist in taking a full out of the haughty Spaniard. He again served his country with distinction and laid down his arms when mustered out with his company at the end of the war.

Mr. Carr is well known to our older citizens and has a host of warm friends in this section who are always more than well pleased to greet him.

Horn Murder Case is
Continued Until March

Absence of Material Witness Given as
Reason For Change of Time

The case of Com. vs Ralph Chirovalla, charged with the murder of Abe Horn at DuBois several months ago, and which was scheduled for trial this morning was continued on application of A. H. Woodward, Esq., counsel for the defense, because one of his material witnesses was sick in bed and unable to be present.

The case was continued until Monday, March 5th, the present panel of jurors being directed to return to court at that time.

OWLS OBJECT TO STATEMENT

The Order of Owls, through their Secretary Peter Shaw, desires a correction of the story published in the list of court house doings last night relative to the appeal taken by the Clearfield nest from a judgment entered against them by Justice Thorpe on a claim of Thomas Parks, a member, for \$25 which he alleged was due him for back benefits.

The secretary of the nest said they object to the statement that payment was refused because they had no money, when such was not the case, as they were amply able to pay all their bills at any time. He also said that the brother was not entitled to any benefits whatever, hence their appeal from the judgment, which fact will be shown when the case is heard in court.

Germany Continues to Hold
All Americans As Hostages
Until Bernstorff Returns'Dutch' Guelich Thinks
Nobody Knows It

We Just Couldn't Help But Find out
He Has Taken a Wife

Patrons of the Guelich Barber shop on Third street have noticed for some time that the proprietor was more than usually courteous and genteel in catering to the needs of his customers. Likewise it has been noticed that his hands are just a little bit shaky and the glistening blade does not run quite so smooth on the face of his customers as it did. "Dutch" isn't much of a fellow for noise except when he is playing his part in the Guelich orchestra so he has not given utterance to a word that would indicate to his friends just why there is such a change in his usual calm manner. But "murder will out" as the old saying goes and "there is a little bird that tells tales" and that little bird fluttered down on the roof of the Progress office this morning very much excited. With a great deal of "twitter" and fluttering of wings the little bird aforesaid told us the whole tale. This is the tale: On the 24th of January "Dutch" took unto himself a wife in the person of Miss Eva Michaels of Grass Flat, Pa. A little gum shoe work confirmed the tale of the birdie and disclosed the fact that the ceremony took place at eleven o'clock P. M. of that day. Best wishes to you old man, but please don't try to keep these things "mum."

The Smith Family are
First Class Marines

1932 Smiths, 322 Murphys and 122
Cohens Recently Enlisted

Washington, Feb. 8.—Do you belong to the Smith family? If you do you are a first class marine. The Smith family is the most widely represented family in the ranks of Uncle Sam's fighting men, according to statistics recently compiled by the United States marines.

Of the 1932 Smiths who have recently enlisted in the United States Marine corps there are 181 Franks, 1165 Johns and 160 each of Charles and Williams. Murphys take the lead among those of Irish descent with 322, and among the Hebrews, who contrary to general belief are first class fighting men, 122 Cohens stand bravely to the fore.

The term "Tommy Atkins" applied to the English soldier gained its popularity by the large number of that name in the British army, and the United States marines point to "Frank Smith" as being the logical sobriquet of the American military man.

JUNIOR CHATUAQUA MEETING

The Junior Chataqua Winter Club will hold an open meeting Monday afternoon Feb. 12th at four o'clock. All who are interested in Junior Chataqua work are invited to attend this meeting.

After the regular club meeting the children will present some of the dances and games that make up part of the Club's activities. Among these are the "Indian Sun Dance," "The Varsoviense," "The Kinderpolka" and "The Swedish Dancing Game" and others.

DOGS RUNNING DEER

Ross Curry, of Chest township, is serving as a juror this week and in conversation with a Progress representative stated that dogs were running deer in the upper end of the county, and that on Friday last a deer had been run into the river by the dogs and drowned was discovered frozen in the ice at the Five Points bridge.

Those Close to President Do Not Believe
That He Will Make the California a Reason For War

U-BOAT WARFARE GOES ON WITH VIGOR

Women and Children Missing

New York, Feb. 8.—Six women and five children were among those missing after the liner California was sunk yesterday according to a cable from Glasgow received at the local offices of the line here today.

Vessels Leave Under Convoy

New York, Feb. 8.—French and Italian vessels left the navy yards at Norfolk this morning fully armed and loaded with munitions, cotton and general supplies for the ententes. Twenty-five miles out from shore the ships joined a fleet of allied war ships which will convoy them. Others from Baltimore and other ports along the coast will join the fleet. It was said that allied war ships would convoy all vessels in squadrons of ten or more hereafter. Several Dutch, Danish and Swedish vessels are closely following behind the guarding warships.

German Agents Busy in Mexico

El Paso, Feb. 8.—Activity of German agents in Juarez, Chihuahua City and other interior cities in Mexico today are claiming the attention of United States secret service men acting under the direction of the army authorities. It is feared the Germans will form a raid of unorganized bandits upon the United States territory in case of a declaration of war by Germany to make necessary the retention of large bodies of troops at the border for protection and seriously embarrass relations between this government and Mexico.

Calls It Flagrant Insult

New York, Feb. 8.—"The delaying of Ambassador Gerard is a flagrant insult" Prof. E. S. Steell, teacher of international law in the Columbia University declared today. Many other authorities agree with Steell in branding the act as one unprecedented in international law.

"I am sure," said Steell, "that the American nation will know how to resent the insult." Prof. F. S. Giddin said "Congress should declare war on Germany by noon today. This is outrageous. No words can be printed that can express how we feel about it. It is apparent that Germany is trying to force war between this country and herself."

3,930,000 Pledge Loyalty

Philadelphia Feb. 8.—Three million members of the German-American alliance have pledged unqualified loyalty to the United States should this government be forced into war with Germany. At a mass meeting held here at midnight a resolution to this effect was adopted. It was learned today. The resolution read by Rev. Jewell Hoffman declared that the alliance will continue collecting its funds for the relief of the war sufferers of the Germanic allies. If Germany and America open hostilities every penny will be turned over to the United States for military purposes.

Offers Gift to Government

Washington Feb. 8.—The Mexican Petroleum company through its secretary E. S. Dornhey of Los Angeles offered the government the use of five million barrels of crude oil at Tampico.

Discharge German Seamen

Washington, Feb. 8.—German seamen in the service of the United States coast guard were discharged on Tuesday it was learned at the coast guard headquarters here today.

British Take German Lifer

Lima Peru, Feb. 8.—A British auxiliary cruiser late last night captured the Chile Maito a short distance off Callao boarded her and took Captain Krauss, acting superintendent of the Kosmos line, a German steamship company.

Krauss according to British officials informed German officials relative to the cargo and sailing time of the Peruvian liner Lorton which was torpedoed and sunk.

Krauss was declared to be a secret agent of the German admiralty. His arrest was hailed in Lima with satisfaction.

The Peruvian government together with Chile support the protest against the German announcement of unlimited submarine warfare.

Flash—France has assured Bernstorff his safe conduct and the other allied powers are expected to reply to the state department's request for safe conduct of Bernstorff by tonight.

Germany is holding virtually as hostages the safe conduct of von Bernstorff and his staff. American newspapers and all American citizens of the United States in Germany will not be permitted to leave until von Bernstorff is returned to a neutral port.

The German government, and possibly because the United States has made known its policy of opposing the war between Germany and America, is holding Bernstorff as a hostage for the breaking of diplomatic relations between the two nations.

There is an American family in Germany. The family consists of a father, a mother and three children. The father is a doctor and the mother is a nurse. The children are a boy and two girls. The family is living in a small town in Germany. The father is a member of the German army and the mother is a member of the German navy. The children are members of the German air force. Evil Mind is Back
Of All Evil Things

Dr. Coburn Subject Tonight Will be
"The Man Who Got Mad."

At the Baptist church last night Dr. Coburn spoke on the teaching of the Bible about God and the devil contrasted with the teaching of man. He showed that back of every evil thing in the world there must be an evil person and an evil mind. Each of every lie there must be a liar. Back of everything of hate there must be one who hates. Inhuman things and the lower animals never do nor hate and have no influence. All must have a beginning and the origin of reason and necessity make a personal devil certain. The Bible represents all disease and death as coming from the devil and that God look upon himself human nature that he might become mortal and so did destroy him that had the power of death, the devil, and deliver them through fear of death were all their lifetime subject to bondage. Every good thing has its opposite in something evil and everything evil comes from the devil the great enemy of God and of man. The speaker then showed how different in every way was the thought of man. The subject tonight will be "The man who got mad." Tomorrow afternoon, Dr. Coburn will deliver an address on "The Mementoes of the Bible." On Saturday night he will begin a series of addresses on some of the great questions of life illustrated with the moving pictures and some of the greatest films yet made and shown in the outside of the large arena.

holding of Americans in Germany as hostages, conduct is given to Bernstorff may look like an or at least an act reflecting on the rights of people. It must be remembered, however, that amicable relations have been broken between the two nations we cannot expect Germany to treat us with a suspicion and a view of self protection. No Americans will be sent home with a hearty "bon as soon as a safe conduct can be arranged for it.

When it comes to making a declaration of war nothing is taken for granted. It is such a momentous thing its alone must be considered. Great consternation when it became known that the California was there is no doubt that the intent to disregard can rights was there and that the California would be sunk regardless of the number of Americans on board. Neither is there anything to indicate that Germany had any reason to believe that there were not more Americans on board. In courts of law, if the intent to commit a crime can be shown, it is sufficient for a conviction when it comes to plunging a nation into war. President Wilson can do no other thing than wait for an "overt act" that is a full and proven infraction of his ultimatum. The past few days we have stood for much as a nation. There is a short time, probably this very day it will happen that Germany will give President Wilson good and ample reason for taking the next step in this great war. Today news tells us that the U-boat warfare goes on and Germany cannot pursue this course without committing the "overt act" that will plunge the two into deadly conflict.

FLIER OF THE WORLD TO MEET AT AVIATION SHOW

New York, Feb. 8.—Bird men from every civilized country on the globe gathered here today for the first Pan-American "Aeronautics" exposition, which opened at Grand Central Palace under the auspices of the Aero club of America. It will end February 15.

Flying men and flying machines from the European battle fronts are on exhibition. Planes wrecked in air fights and air-men wounded above the clouds are part of the show.

The really serious part of the program is the plan that will be advanced by the American society of automobile engineers to make the aeroplane and other air craft standard in all parts, like the automobile. It was this action with regard to autos, President Howard E. Coffin of the Engineers declared today, that gave the United States supremacy in the automobile world.

Among the speakers will be Prof. L. W. Pawlowski of Michigan, John Barrett of the Pan-American union, Ambassador de (Gama) of Brazil, Elbert Santos Dumont, Emerson McMillan, Henry White and others.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or have Bladder trouble

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poisons, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

AMBASSADOR F. C. PENFIELD
AMBASSADOR A. I. ELKUS
MINISTER C. G. VOPICKA

Following the order to Ambassador Gerard to quit Berlin, it was momentarily expected in Washington that complications with Germany's allies would become such that it would be necessary to recall also Ambassadors Frederick C. Penfield at Vienna, Abraham I. Elkus at Constantinople, and Minister C. G. Vopicka, sent to Bulgaria and Roumania. Since Minister Vopicka makes his official residence in Bucharest, Roumania, such an order would probably mean he would remain there and sever relations with Bulgaria.

KNIFE ON CORNS CAUSES LOCKJAW

Tells how to loosen a tender corn so it lifts out without pain.

You restless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called Freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with little fingers.

It is stick y substance which does the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

THE SEVEN DEADLY DONT'S OF COURTSHIP

1. Don't "mush." That is, don't hug and squeeze and kiss all the girls before marriage. You'll tire of it too soon when you are married.
2. Don't try to rush matters, or seem over-anxious. It does more harm than good if you call on her very night in the week.
3. Don't get her a ring she will be ashamed of. Strike an average somewhere between on she would turn in and one that can be seen a block.
4. Don't dangle other girls in front of your sweetheart just to show her there are others. Cut out the others and concentrate on one.
5. Don't be a parlor or porch decoration and nothing else. Take her to a theatre, buy her candy, bring her flowers, show your love.
6. Don't marry for money or on love at first sight, or if there is too much difference in your ages, or if you are in poor health.
7. Don't forget her Mother. If she's the right kind of girl she'll heed her mother's advice and you will need a friend at that court.

UNCOVER RUINS OF LOST CITY ON AMERICAN CONTINENT

Asuncion, Feb. 8.—Excavating for the foundations of a new prison near Asuncion, workmen have uncovered the remains of a pre-historic city which archeologists pronounce a kind of Paraguayan Pompeii.

The town was laid out in a system of rectangular squares, with diagonal avenues and buildings of considerable size and architectural pretensions. From this the local experts conclude that the inhabitants must have reached a reasonably high stage of civilization. They figure, however, that the city must have disappeared long before Columbus sailed for the new world.

Nobody ever suspected before that such remains existed in this part of South America.

More experienced investigators than are to be found here have been communicated with in Buenos Aires and Rio de Janeiro and researches are to be conducted which it is hoped may lead to important discoveries concerning the pre-historic inhabitants of the country.

Fine for Backache and Rheumatism

Stiff Joints Loosen Up Like Magic—Lumbago Relieved Over Night.

Earache, Headache, Toothache and Neuralgia also banished in a few minutes.

Just rub Mustarine on that sore, aching, almost breaking back. Don't be afraid to rub it on—it won't blister, but in five minutes you'll wonder where your backache has gone. You'll wonder why you never thought of Mustarine before.

Mustarine overcomes and entirely banishes so many ailments that no home can afford to be without it. Cough, Night Cough, Chest Cough, Sore Throat, Stiff Neck, Lumbago, Rheumatic Pains and Neuritis, can also remove all agony from Feet, Bunions and Callouses. Use it for Chills and Frosted Feet.

Druggists everywhere can supply you but be sure you get the original Mustarine in the yellow box—25 and 50 cents. Never sold in jars.

Get it at Woodward and McPherson's. Mail orders filled. Berg Medicine Co., Rochester, N. Y.

VIRGINIA NEWSPAPER CONFERENCE

Charlottesville, Va., Feb. 8.—"The Newspaper Business" is to be the main topic of the first Virginia Newspaper conference, which met at the University of Virginia today and will continue over tomorrow. In conjunction with the conference the Virginia Press association is holding its mid-winter meeting. Upwards of one hundred publishers, editors and other newspaper workers were present when the gathering was opened with an address of welcome by President Edwin A. Alderman of the university.

For nearly two years the Queen of the Belgians has remained continuously with her husband near the battle front, except for brief visits to her children in England.

4000 ACRES OPENED TO SETTLEMENT

Belle Fourche, S. D., Feb. 2.—The Belle Fourche reclamation project, situated in the Valley of the Belle Fourche, just north of the Black Hills and near the junction of the Belle Fourche and Red Water rivers, was opened for settlement today in pursuance of a proclamation by the President. Approximately 4000 acres are thrown open under the terms of the homestead and reclamation laws. The land is especially desirable for stock raising, being adjacent to an immense open range and with available hok stocks for winter feeding.

SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

Drink glass of hot water before breakfast to wash out poisons

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile, and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a huge volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation bilious spells, stomach trouble, rheumatism, other who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little but is sufficient to make anyone a pronounced

Takes Up His Cudgel Against "Mushing"

Y. M. C. A. Secretary Says There was Nothing Like it in His Day

New York, Feb. 8.—The cudgel against "mushing" was taken up with a vengeance here today by Secretary Charles W. Dietrich of the Central Y. M. C. A. He defined the term as "that hugging, kissing habit" of young men and women at parties these days.

"It's very bad from every standpoint, this dark and dangerous 'mush' part," said Dietrich. "Yet it is a great habit among young folks today."

"If you 'mush' too much now you will get tired of it before you ought to. They didn't have anything of that sort when I was young and I know of it now only through my sons, who by the way have only heard of the 'mush' parties; they don't attend them."

"Don't carry your demonstration too far even when you are engaged. Use your kisses for affection, not for passion; and your arm for protection, not for spooning."

"Marriage certificates of health are advisable. My son-in-law gave me one, although I did not demand it."

GAY MILITARY BALL FOR OLD GUARD

New York, Feb. 8.—The imagination falters when it attempts to fortell the grandeur and magnificence of gold lace and bubbling spirits which will be seen at the Old Guard ball at the Hotel Astor tomorrow night. For ever so many years the ball has been one of the brilliant social functions of the Winter in the metropolis. This year it is expected to set a new high mark for brilliancy and attendance.

Col. A. L. Kline, who is celebrated for his veracity, says there will be nearly 10,000 guests. State and city officials and officers of the army and navy will be present, together with delegations representing the veteran military organizations of numerous Eastern cities, including the Ancient and Honorable Artillery Company of Boston, the Governor's Foot Guards of New Haven, The Minute Men of Washington, the Putnam Phalanx of Hartford, and the Worcester Continentals. The members of these various organizations, clad in their picturesque uniforms, will take part in the grand military march at midnight. The Old Guard's 200 musicians will play for the march and dancing.

Here, Indeed, is E. H. Southern

As Angelo the deformed and irascible banker of Naples, and again as the uncanny Duke d'Veauvius, E. H. Southern is indeed E. H. Southern.

In all the splendid programs offered during its twenty years of leadership among motion picture producers

THE VITAGRAPH COMPANY
has released no more unusual intensely dramatic photopl than

"The Man of Mystery"

A drama of a Man who Returned from the Valley of the Shadow to Live Again Among Those who Thought Him Dead.

Supported by the popular actress Miss Charlotte Ives, Mr. Southern weaves the spell of his genius through all the tense situations of this unusual play.

The "Man of Mystery" records Mr. Southern's genius incomparably on the motion picture film.
